INQUIRY: Spilling – Gas expansion engine

Please send us a quotation based on the following data:

Gas quality: Type of gas: _____

Content of methane: _____ [% CH₄] Normal density: _____ [kg/Nm³] (at 0°C / 1 bar abs)

Gas flow: \varnothing Gas flow: _____ [Nm³/h] annual flowdiagram attached *)
minimum gas flow: _____ [Nm³/h] Maximum gas flow: _____ [Nm³/h]

*) Please send us monthly, daily or hourly values (e.g. MS Excel file)

Gas pressure:

High pressure gas before reducing station

Low pressure gas after reducing station

Average: _____ [bar g]

Average: _____ [bar g]

Min. pressure: _____ [bar g]

Min. pressure: _____ [bar g]

Max. pressure: _____ [bar g]

Max. pressure: _____ [bar g]

Gas temperature: before reducing station _____ °C after reducing station _____ °C

Type of Gas preheating system: boiler CHP Other _____

Operation hours of pressure reducing station:

_____ hours / day _____ hours / week _____ hours / year

Remarks:

With best regards
